

We want Rostock to stay Rostock!

City-council-
election
on June 9

Die Linke

Rostock

So that city council and the mayor can continue their successful cooperation!

Rostock gained new momentum with the election of Eva-Maria Kröger. City hall and city council are back to working well together. In order for this to continue after the election, Rostock needs a strong democratic majority in the city council. Support the mayor with your vote for Die Linke.

So that public transportation stays free for kids!

In Rostock, schoolchildren ride buses and trams free of charge. We'll make sure it stays that way.

So that we finally get a new theater!

The excavators have started digging and the new Volkstheater is finally being built. Its opening is still a ways away, and over the next few years, important decisions will need to be made. We are looking forward to the new building and will continue our support for the project in the city council.

So that Rostock gets a third indoor pool!

Rostock's north-west needs an indoor swimming pool that will mainly serve schools and senior citizens. Together with city hall, we are making sure it gets built.

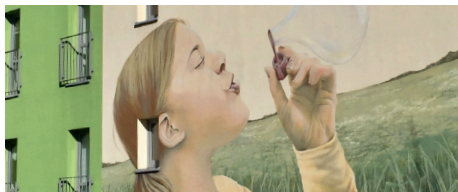

So that all city districts remain important!

We advocate for all city districts. Our commitment includes the renovation of numerous schools and gyms as well as reliable access by bus and streetcar. We want everyone to thrive in Rostock. That's why we champion well-equipped community centers and rich cultural events.

So that Rostock remains a city for all!

We all know that the political situation is not easy at the moment. And we all know why. Nevertheless, we have to stick together. Rostock is strong. Together with the mayor, we work to ensure that social causes are always a priority. For example, we want lunch in schools and daycare centers to be provided by the public sector to make sure that all children have access to an affordable and healthy lunch.

So that everyone has a good job!

Many companies want to move to Rostock. We support this provided that they also pay a good wage. In order to strengthen the economy, we also want to continue developing the port in an environmentally conscious manner.

Dear citizens of Rostock,

We want Rostock to stay Rostock. In our city, social causes have to continue to be the heart of political decisions. At the same time, we want to advance Rostock further: with a new indoor swimming pool, a new theater, and a flourishing port. To do this, we need a strong Left Party and a majority in the city council that wants to work with Mayor Eva-Maria Kröger to shape the future of Rostock. And for that we depend on you and your trust in us!

Christian Albrecht, Candidate

To Keep Rostock Rostock! On June 9, with all your votes: Die Linke!
